Remarks

Claims 1 – 16 are pending in this application. No claims have been amended.  
Reconsideration of the application is requested.

Priority

Applicant hereby disclaims the previously claimed continuation priority under 35 U.S.C. § 120 to U.S. Patent Application Serial No. 09/250,711, entitled “System and Method for Electronically Providing Customer Services Including Payment of Bills, Financial Analysis and Loans”, filed February 16, 1999, which is a continuation of U.S. Patent Application Serial No. 08/372,620, entitled “System and Methods for Electronically Providing Customer Services Including Payment of Bills, Financial Analysis and Loans”, filed January 13, 1995 (now U.S. Patent No. 5,873,072), which is in turn a continuation of U.S. Patent Application Serial No. 07/736,071, entitled “Electronic Bill Payment”, filed July 25, 1991 (now U.S. Patent No. 5,383,113). The specification, and in particular, the recitation of “Related Applications” on Page 1 of the specification, has been amended herein to reflect the disclaimer of the originally claimed priority to U.S. Patent Application Serial No. 09/250,711. Although that priority is disclaimed, the present application retains the incorporation by reference of the entire disclosure of U.S. Patent Application Serial No. 09/250,711, as reflected in the amendment to paragraph [0002] of the specification as provided herein.

Applicant also hereby requests that the previously claimed continuation priority under 35 U.S.C. § 120 to U.S. Patent Application Serial No. 09/795,314, entitled “Electronic Bill Processing with Enhanced Bill Availability Notification and/or Enhanced Bill Presentation”, filed March 1, 2001, be changed to a continuation-in-part priority under 35 U.S.C. § 120 and 37 CFR 1.53(b). This change is made because the specification of the present application incorporated and claims additional disclosure not present in U.S. Patent Application Serial No. 09/795,314. To effect his change, the specification, and in particular, the recitation of “Related Applications” on Page 1 of the specification, has been amended to recite that the application is a continuation-in-part of U.S. Patent Application Serial No. 09/795,314.

Applicant respectfully asserts that the disclaimer and change of priority described above are proper. A supplemental declaration and power of attorney and a supplemental application

**Conclusion**
